Gain Scalable, Cost-Effective Microsoft Licensing

UDT's Microsoft Cloud Solutions Provider (CSP) Program

UDT
ACCOMPLISH MORE

Committing to licensing can be intimidating. IT leaders require a flexible Microsoft licensing program to remain adaptable as needs evolve.

Many license programs don't allow organizations to pilot solutions in their environment before committing

The rigidity of traditional licensing agreements makes accommodating fluctuations and managing expenses difficult

Maintaining enterprise agreements is a tedious and time-consuming process due to annual true ups

Take control of your Microsoft licensing with UDT's Microsoft CSP Program.

❯ Benefit from a program that works on your schedule and budget with annual and monthly plans

❯ Streamline procurement with same-day license attainment, empowering instant productivity as you scale

❯ Eliminate surprise fees and stop waiting for your annual true up when you switch to a predictable billing cycle

❯ Pilot products using monthly commitment license terms that offer the flexibility to cancel the subscription

Experience the power of tailored, scalable, and competitively priced enterprise licensing with UDT's Microsoft Cloud Solutions Provider Program.

❯ **Storefront Access**

Gain access to a personalized self-service portal that empowers you with complete visibility into your current licensing while enabling you to complete licensing-related tasks in real-time.

❯ **License Management**

Benefit from flexible license management across your program as you view license renewal reminders, scale license quantities, and assign/remove licenses by request—all in one place.

❯ **Licensing Specialist**

Your organization will have at its disposal a UDT licensing specialist who can discuss options and/or answer questions about products, license management, and optimization assessments.

❯ **Premier Support**

As a UDT customer, your organization will receive the benefit of our premier support channel, which allows support requests to be prioritized with Microsoft for expedited resolution.

❯ **Cost Optimization and Control**

Identify and reduce wasteful spending, underutilization, and low return on IT budgets. UDT Cloud cost optimization enables you to lower your cloud costs while also achieving better performance.
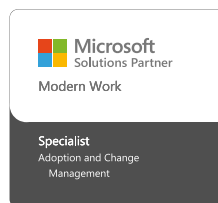

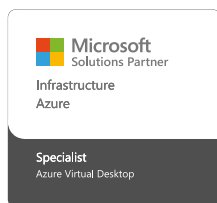

❯ **Managed Microsoft 365**

Ask us how you can optimize the performance of your Microsoft 365 suite with this optional add on. Support user adoption and productivity while ensuring integration and compliance with cybersecurity systems and policies.

Navigate Microsoft Licensing Confidently with UDT's Microsoft Cloud Solutions Provider Program.

There are a few reasons why we are so good at what we do:

- Since 1995, UDT has helped organizations achieve enhanced productivity, security, and experience.
- With deep expertise across IT, we offer complete IT solutions spanning cloud services through security.
- Our approach is proven—we provide services to 5,000+ clients across the US and Latin America.
- UDT has been a Microsoft partner for 20+ years and we are a CSP and NCE Tier 1 Microsoft Partner.
